

Sulawesi Landslip

In the year 2100, the *Nihon Kinkyu Kyushutsu Cho* is an elite agency of the Japanese government. Its hypersonic dropships and armoured cybershells can reach any point on Earth within minutes, carrying teams with just one mission: to rescue every possible victim of any disaster.

But your team has an additional task. You have to look good while you're doing your job. You've been selected as faces of the NKKC, so try to look the part, okay?
